# Design inspired by nature

Upon request, we'd be happy to stock your fridge. Large bathrooms with steam rooms are included in each apartment to offer you complete privacy.

A SPA is located nearby with indoor pool and a wide range of treatments.

-  Fully equipped kitchen

-  Bed linen and towels

The “cubes” of the rocksresort with its 143 apartments are grouped around a central square. The concept is inspired by the LAAX landslide, which formed the area of today’s destination LAAX about 10,000 years ago, today a UNE-SCO World Heritage site.

The clear external forms of the rocksresort are also taken up in the apartments. Natural materials are used in the furnishings, which ideally complement the precise architectural lines. The bedrooms are lined with natural oak wood, the walls and floors in the living area are made of lime and concrete.

This combination of the natural warm materials and the modern architecture provides great and comfortable space to relax, play and discover.

# The family-friendly rocksresort

At the Ami Sabi snow wonderland children experience the most exciting aspects of the mountain world while learning to ski or snowboard at the same time.

A special hiking experience for your little ones is the Connbächli and for fun and puzzles along the way, follow the trail of the fox on the new Foxtrail.
